

Are you ready to take your knowledge in electrical engineering to the next level? Would you like to combine studying and working to gain practical experience while learning? And earn a salary at the same time? Then read on and discover your future apprenticeship

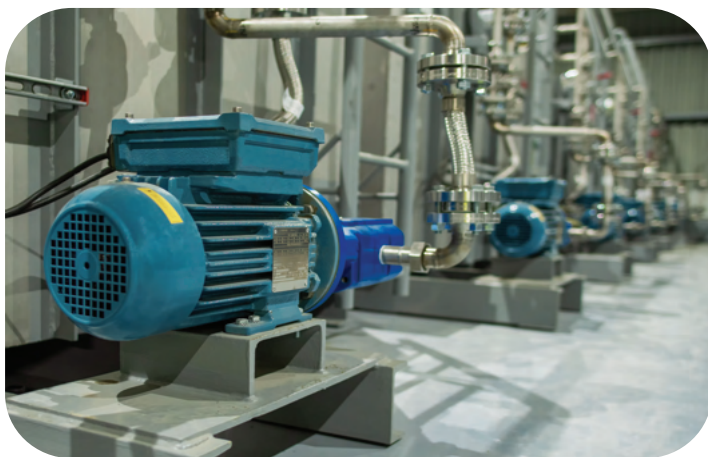

# DUAL APPRENTICE ELECTRICITY

## JOB DESCRIPTION

EFVEO is looking for motivated and eager to learn students who wish to pursue a dual apprenticeship in electricity. In this role, you combine study and work, gaining direct practical experience while expanding your knowledge ! Isn't that fantastic?

## YOUR PROFILE

- You are currently pursuing or planning to pursue a degree in electricity.
- You have a passion for engineering and are willing to dive into the books as well as get hands-on.
- You are eager to learn, accurate and have an eye for detail.
- You are a team player but can also work independently.

## WHAT WE OFFER

- A challenging and educational working environment where you can develop yourself.
- Guidance and support from experienced professionals in the profession.
- Opportunities to grow within EFVEO.
- A market-based salary.
- Flexible working hours to suit your study schedule.

## HOW TO APPLY

Are you enthusiastic and ready to put theory into practice? Then send a message and a short motivation to [info@efveo.com](mailto:info@efveo.com). For questions about the vacancy, please contact Koen Van de Voorde on **09 231 79 37**.
